CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to any one.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds,
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism

The Bane and Antidote.

Philosophize as we will, necessity is a hard task-master, and to follow its dictates sometimes requires more stoicism than our frail natures can summon to our aid. With this community, it has dealt harshly—cruelly. Four years ago, how bright and cheerful the hopes and prospects of all! how contented each with his lot! how buoyant with hope each immigrant who with golden visions sought this Utopian land of promise! and now what is their condition? Where the once thrifty homes radiant with the sunshine of gladness and contentment? Where our rapidly increasing population? Where our commerce, property interests, and other elements of wealth and prosperity? Let the Bankruptcy Court, the Assessor and the Mail Steamer supply the answer. It is disheartning to a degree to witness the departure of the many familiar faces that have crowded the downward steamers for months past; to bid adieu to those whom we regarded as identified with the country, all leaving for other parts—mark! not by choice, but by the stern decrees of necessity, unable longer to find a living here. And yet do we, who remain, feel more sorrowful than they who depart? No! In ninety-nine cases out of every hundred people take their leave of us with heavy hearts, deploring that their destinies can no longer be cast with ours. There is a lingering faith in the future of the Colony pervading the minds of all that is irradicable under the most pressing situations. Not only have they unbounded confidence in its mineral and other resources, but they like the country, its climate and people, and would fain make this their home if they could. It is not our present intention to speak of the causes that have produced these effects. They have been over and over again traced to their true origin. The cancer that has preyed upon the vitals of the country has been probed, and we firmly trust that the proper remedies are being applied to arrest its further progress. The elements of success in the country are unbounded. Withal the general collapse in other branches of wealth, the agricultural interest has made considerable headway, and it needs no powers of clairvoyancy to foresee that with the exercise of a sound and discriminate governmental policy, a policy that will honestly study the interests of the many and seek only the general good—that will boldly and fearlessly adapt itself to the exigencies of the country by disencumbering the people of outrageous and ruinous taxes, and initiating a system of economy in the public expenditure in keeping with the capacities and wishes of those who have to bear the burden, this Colony will ere long recover from its present languor, and a more enduring era of prosperity await those who survive the present crisis. We may be blamed by some for the picture we have drawn of the unhappy condition of affairs in this Colony, but we believe in painting things in their true colors. There is no danger just now of obstructing immigration. Emigration with us at the present moment is a much more serious matter, and the sole energies of government and legislators must be directed to the most effectual means of keeping *people in the country*. When things are in a flourishing condition there will be no difficulty in inducing settlement. The shock is over and the storm cloud is lifting, but it has left us postrate and weak, and the body politic will require tender nursing to restore it to health and vigor. Similar causes have led to similar results to our neighbors in Oregon. Even Portland with her advantages of population and a wealthy back country, finds herself passing through the same ordeal. During the past year the business of the city has become stagnated to such an alarming extent as to cause many to feel that there is little hope for the future. Two years ago there were not enough houses in the city to supply the demand, now there are hundreds empty and their owners unable to pay the onerous taxes laid upon them. To meet the evil the Municipal government has been compelled to abandon necessary public works, and to observe rigid economy. Portland has no cause to be apprehensive of the future, the pressure, in her case, is but a temporary one, which her geographical position will enable her to overcome. We have natural advantages fully as great—indeed, greater than she, but it is only by being like her, wise in our generation, by cutting our coat according to our cloth, that we can hope to save this country.

DELAYED DESPATCHES.

United States.

WASHINGTON, January 7—In the House, Mr Loan, of Mo., offered a resolution in substance, that to secure the fruits of the victories during the war, it is the imperative duty of Congress, without delay, to accomplish the following objects:

1st. The impeachment of the officer now exercising the functions of President of the United States and his removal from office for the high crimes and misdemeanors of which he is notoriously guilty, and which render him unsafe to exercise powers he unlawfully assumes.

2d. To provide for the administration of the Executive Department.

3d. To provide means for the immediate reconstruction of the States lately in rebellion, except Tennessee.

4th. To secure by Federal authority the right of Franchise for the negroes in the Southern States.

Mr Loan's resolution created great excitement.

Mr Davis, of West Va., moved to lay the resolution on the table. Negatived, 40 to 13

Bingham of Ohio made a point of order that as the 8th Section provides for the admission of Rebel States, in compliance with conditions prescribed, it must be referred to the Committee on Reconstruction.

The Speaker overruled the point of order, as that bill had been reported from the Committee and was before the House, subject to amendment.

Stevens supported the substitute. He said the late decision of the Supreme Court had rendered action necessary. It had taken every protection from loyal men, black and white. It had unsheathed the assassin's dagger, and the truly loyal people of the South are in terrible peril. This bill enabled loyal men to form a government and protect themselves. One of the most atrocious murderers ever let loose had been liberated under this decision: Congress must courageously provide for such cases. Speaking of the President, he said that although he was Commander-in-Chief of the Army, Congress was his commander, and please God he should be made to obey. The President should know that this was a government by the people, and that Congress was the representative of the people. Unless impartial suffrage were introduced in the rebel States, every one of them would be sure to send a solid rebel electoral vote. They, with their kindred Copperheads of the North, would always elect the President and control Congress and the people.

Stevens modified the third section.

Ashley of Ohio moved that the amenement be ordered printed.

The amendment declares the acts of the so called State governments void, and makes all males over 21 years electors; also imposes an oath dictating that the said elector was, on the 4th of March, 1864, willing to comply with the President's proclamation of December 8th, 1863; was at all times thereafter opposed to continuing the rebellion, and never treated Federal prisoners otherwise than as lawful prisoners of the United States Government. It imposes upon delegates elected to State Conventions provided for, an additional oath that they have never voluntarily borne arms against the United States, and never held any office, civil or military, under the Confederate Government. If the Convention agrees to adopt the Constitutional amendment, it is to then elect five citizens, distinguished for their loyalty and fidelity to the Constitution and Union, who are to act as a Provisional Committee of Public Safety for the State until a Constitutional Convention shall assemble and elect a Provisional Governor. It shall adopt an ordinance for making all persons free and equal before the law, provide for free schools, repudiate debts incurred for the rebellion, and exclude from office rebels who held revolutionary appointments. Martial law may be declared by the Provisional Government and the writ of habeas corpus suspended.

Wentworth of Illinois asked leave to offer the following:

Resolved, That the committee on Judiciary be instructed to report what means, if any, can be taken to prevent the Supreme Court from releasing and discharging the assassins of President Lincoln, and conspirators to release rebel prisoners at Camp Douglas, in Chicago, under color of law of 1860, and also to enquire into the expediency of repealing said law.

Mr Sumner of Massachusetts, introduced a resolution directing the Judiciary Committee to inquire if any legislation on the Constitutional Amendment is necessary to prevent the sale of persons into slavery for a term of years as a punishment for crime. He called attention to cases which had come under his observation in which colored persons had been sold by order of courts in Maryland. It seemed to him that Congress should have the opinion of Judiciary Committee as to the right of States to inflict such punishment since the time when the Constitutional Amendment was adopted.

Mr Saulsbury, of Deleware, said the advertisements referred to by Sumner were copies of what frequently appeared in a Massachusetts paper some years ago. The Legislature of Maryland had not been in session since the passage of the Civil Rights bill, and had, therefore, not had an opportunity to change the laws of the State. Johnson, of Maryland, said he had no objection to the reference. Its purpose would be accomplished he thought more speedily by the courts. The Judge who ordered the sale referred to had been arrested under the Civil Rights bill, and the case would soon be tried and probably carried to the Supreme Court. He believed there was no State in the Union more opposed to slavery on account of color than Maryland. Fessenden, of Maine, asked if the law under which criminals were sold in Maryland applied to white men also. Cresswell, of Md., said that it did not. Johnson said that if there was a difference in punishment between white and black, it would be settled under the Civil Rights bill. Cresswell said the amendment abolishing slavery covered the whole case. The words "except as punishment for crime" never meant to give the right to sell criminals into slavery. The proper enforcement of the amendment would abolish all slavery in persons. He should not debate with his colleagues as to the eradication of the spirit of slavery from the statutes of Maryland. Perhaps Johnson was right. That could be ascertained when it was seen what the Legislature just convened would do to abolish the black laws of the state.

Sumner resumed the floor and spoke in favor of the resolution, which was adopted.

Spaulding of Ohio argued in favor of the admission of the Southern States upon the ratification of the Constitutional Amendment, which he said was the understanding heretofore. He warned Congress against an impeachment of the President. Thad. Stevens replied characterizing Spaulding's speech as pernicious, and declaring for himself that though the South ratified the amendment, he would impose upon them negro suffrage.

WASHINGTON, Jan. 5—Thad. Stevens will on Monday introduce a resolution instructing the Judiciary Committee to prepare a bill declaring the rebel districts in a state of seige suspending the writ of *habeas corpus* and establish military government until the States are regularly admitted into the Union.

WASHINGTON, Jan 3—There is barely a quorum in either House, and no business of importance will be done to-day. Thad. Stevens has the floor on the reconstruction bill, and is making a speech in which he goes in for the reconstruction of the Supreme Court.

CHICAGO, Jan 7—A Washington special says there has been a caucus of prominent Republicans to secure the full consideration of the subject of impeachment by the Judiciary Committee, to whom all resolutions will be referred without debate. While we must agree there is not sufficient time to complete a trial at this session, the majority deem it important that there should be an investigation of the subject.

The brig Sunny South belonging to this port, left Yokahama on the 10th of September, bound for Shanghai with a cargo of treasure and passengers. On the 12th of September, a terrific typhoon commenced along the coast of Japan and continued for three days with unparalleled fury. At the time of the commencement of the typhoon the Sunny South is supposed to have been in the vicinity of the Straits of Van Deiman's, where she was probably lost with all on board, as no word has since been heard of her and dates of 60 days later from Shanghai have been received without news of her arrival. The Sunny South was a fine vessel of about 250 tons register and had a valuable cargo of merchandize, about $50,000 in treasure belonging to the bank of California on board. She was commanded by Captain Holton, who had with him his wife, daughter and nephew named Baily, who belongs to this city. A nephew of Capt. Bartzer, who is part owner of the vessel, was also on board, and two passengers from Yokohama, whose names are not known.

Letter from Paris.

(From our Special Paris and Continental Correspondent.)

PARIS, Nov. 9, 1866.

NON POSSUMUS.

The recent allocution of the Pope, soundly rating the Italian Government for not wishing to remain in the darkness only suited to the middle ages, has excited a lively emotion in the Italian Peninsula—that document proves once more that the Vatican persists in its blind opposition, not only to Italy, such as the revolution has made her, but even to every principle of modern society.

The Pope speaks of exile and martyrdom, he may indeed exile himself, that is he may leave Rome, where his religious independence incurs no peril, but that will be a voluntary exile. As to martydom, we live in a period and under a Government which will refuse him the glory of it. What Italy wants is known. She aspires to be truly Antonomous, that is, to enjoy all the rights the civil society reposes. This object she is resolved to attain, and she will attain it. But notwithstanding the attacks of the Pope on the present Government, the King of Italy is decided to leave the church her independence and liberty.

For the address, concerning Russia, His Holiness complains of the ill-treatment practised against the subjects of the Czar professing the Catholic faith and against the Roman Catholic ecclesiastics in Poland. The Pope says: Would to God that the sad news which we have received may not be confirmed, that the venerable and excellent Bishop of Chelm, and the major portion of the canons of the Cathedral, have by order of the Government been transported into unknown regions. We hear with grief that the Russian Government endeavors to tear those of the Catholic faith from the bosom of the church and to draw them with all its force towards the most fatal of schisms.

NAPOLEON HIMSELF AGAIN.

The beautiful weather with which we have of late been favored, has been a God send to the sight-seekers from the provinces which now swarm in the French Capital. The Emperor, accompanied by the Empress and the Prince Imperial, came from St. Cloud on the 5th Nov. to review the troops of the garrisons of Paris. The Emperor, who looked remarkably well, wore the uniform of a General officer, and the young Prince that of a Corporal of the Imperial Guard. The latter rode the pony given to him by the Prince of Wales. The Emperor, who was accompanied by Marshal Canrobert, Marshal Randon, and a brilliant staff, and escorted by a body of the Cent Gardes, and Dragoons, was received with loud acclamations by the thousands of spectators, who thronged the race course of the Bois de Boulogne, when the review took place.

ACQUITTAL OF RISK-ALLAH-BEY.

This extraordinary trial will not be soon forgotten by the inhabitants of Brussels, and by the newspaper readers of Europe in general. There was never any doubt of the accused being innocent of having murdered his nephew and Ward, the young Englishman, named Readly. Risk-Allah-Bey lived surrounded by the consideration of all who knew him, honored by the friendship of the most illustrious personages of Europe, and yet a chain of fatal and romantic circumstances, mysterious and irrestible, led him to appear as a felon at the Bar of the Belgian Criminal Court, under the double charges of assassination and complicity in forgery. It is painful to think that, if he had not possessed a large fortune, which enabled him at great expense (10,000) to retain the first lawyer of the French Bar, Mons. Lachaud, and to bring witnesses as to character, and to conductexperiments, which demonstrated the impossibility of a crime being committed in the death of Readly, the jury, in the absence of convincing proofs, might have returned a verdict of guilty. The points of the charge grouped themselves together so consistently and with a logic so apparent, they formed so compact a network, that involuntarily, in listening to the speech of Mons. Bavet, the public prosecutor, prejudice took possession of the mind, and conviction inclined towards an affirmation of culpability. Nevertheless, Risk-Allah-Bey was innocent of the murder of the young epileptic Englishman.

"STILL HARPING ON MY DAUGHTER,"

The Paris papers, for want of other matter, still refer us to other subjects now thoroughly worn out,—Rome and Mexico—the great bugbears of the present moment.

We know nothing of the present movements of Maximilian; a few days will, no doubt, bring us certain information as to what has taken place at Mexico since our last letters arrived.

We hear that the Emperor Napoleon, two days back, sent to General Castlenaul a long telegraphic despatch by the transatlantic cable, and of which the cost was rather considerable, notwithstanding the diminution of the tariff. His Majesty is said to have repeated his first instructions to his aide-de-camp, and calls on him to hasten the evacuation of the army.

THE EMPEROR

Is now at Compeigne, attending alternately to his numerous guests and to the commission for the reorganization of the army. It is generally believed that the stay of the Imperial Court at Compeigne will be shortened this year, as the Emperor is anxious to personally inspect the progress of the work now going on in the interior of the Exhibition palace.

DESTRUCTIVE FIRE IN JAPAN.—To the great conflagrations that have marked the year just passed away, we have to add another equalling in its destructive results any that preceded it. On the 26th November a fire broke out in a cook shop at Yokohama Japan, and the flames spread with such rapidity that in the course of a few hours two thirds of the native settlement and one fifth of the foreign were consumed. The total loss in Japanese and foreign property is estimated at between $3,000,000 and $4,000,000 and a number of natives are said to have lost their lives. In spite of the utmost efforts of citizens, military and marines, the force of wind fanned the flames to such fury that some 37 blocks of buildings in the foreign part of the town were either wholly or partly destroyed, including the Japanese Custom House, a bonded warehouse, the French American, Portuguese and Prussian Consulates, the old British Consulate Buildings and the fire engine House. The native town was three parts consumed in the space of two hours. The United States Consulate was a new building, the first built by that Government in any foreign country, and was erected on the spot where Commodore Perry made his first treaty with Japan. It also contained the residence of the Consul, Col. Fisher, who was a heavy loser by the fire. The archives were destroyed. In the French consulate but few papers were saved, and hardly any of the gentlemen connected with the English Legation or who occupied the other consular buildings saved more than the clothes on their backs. The French Consul lost all his savings for a lengthened period. Among 52 places of business enumerated in the Japan *Herald* as having come within the pale of destruction we notice the names of Jardine Matheson & Co., the well known China House, whose warehouse was burnt. The Japanese Government behaved with the ut most consideration towards the foreign sufferers. At a meeting of the agents of the various Fire Insurance offices it transpired that the following were their respective losses, China Fire, $341 000; Imperial, £20 000; Phœnix, $66 9000; North British, £60,000; Northern $306 5000; Commercial, £9,000; Queen, £9,000; Royal, £79,000; London & Lancashire, $132,000; Liverpool & Globe, $80,000; London Insurance, £43,700; Sun, $156 500; Samarang, $20,000; Albert, $43,000, representing a total in round numbers of $2,150,000.

A New and Grand Epoch in Medicine.—DR. MAGGEL is the founder of a new Medical System! The quan itarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have oened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhœa Pills** cure where an others fail. THE BRITISH IRON CLAD FLEET.—Additional particulars have been received at Chatham respecting the final trial of the ships comprising the Channel squadron, under steam, during the run from the coast of Ireland to Plymouth. On leaving Bantry Bay, on the 1st inst., a short trial of the squadron at full speed took place, when in the course of the trial, which lasted only two hours, the Achilles beat every other ship, the shorter vessels acquitting themselves remarkably well, with the exception of the Bellerophon, which on this occasion took the fourth place only. The ponderous Lord Clyde, which represents in the squadron Mr Reed's class of wood-built frigates completely clad with thick armour, took the second place, while the Pallas, which has gained the palm for sailing in all trials, and under all circumstances, followed next. The Pallas, it may be remarked, is 50ft. shorter than any other frigate of the squadron, and by thus taking the third place, beating even the Caledonia, Ocean, the Hector, and coming so near the Achilles, has vindicated the character of the new ships as steamers, which the momentary failure of the Bellerophon might otherwise have compromised. The low speed attained by the Bellerophon at the commencement of the trial was attributed to the circumstance of one of the bearings of the engine having been screwed too tightly, and to the sudden priming of the boilers, which resulted in her steaming, for a short time, at 11 knots only, while there is little doubt she would have been beaten by the whole of the vessels of the squadron had the defects not been remedied. In consequence of these accidents during the short race a further trial of the Bellerophon was ordered on her way to Portsmouth, resulting in a speed of rather more than 14 knots, and equalling, in fact, that achieved in August last at the measured mile, Stokes Bay, It is scarcely possible to over estimate the importance of the long series of successes which the Pallas has attained during the cruise of the squadron, inasmuch as they completely dissipate the opinion universal in the ship-building world down to a year or two since, that enormous length was the leading desideratum in our ironclad ships. During the cruise the Pallas succeeded in beating everything under canvas, and followed close upon the heels of the Achilles, which proved herself the fastest vessel of the squadron under steam, and that notwithstanding the Pallas is 155ft. shorter than the Achilles. Since the trials the Pallas has proceeded to Galway for a short time,—*Times*.

SHOOTING AFFRAY AT LEWISTON.—The Oregon *Herald* says: "We learn from a gentleman just down from Lewiston, that a man by the name of Page, the same individual that turned State's evidence in the Magruder murder trial, was killed in Lewiston on Christmas day, under the following circumsiances: He had been at a bawdy-house the night previous, and by bursting open the door had entered and inflicted a severe beating on the person of the woman's pimp, named Elargo. Page was employed the next day hauling water, and while at a house delivering the water, he was met by Elargo, who ordered him out of the house. At this Page made at the man, who backed into a back yard, when, being followed up by Page, the man Elargo, fired a double-barreled shot gun, loaded with nine buck shot, hitting Page in the side, the shot passing directly through the heart and body, and killing him instantly. Elargo was undergoing an examination at the last accounts, with a strong probability of being released, provided he would leave the country. The feeling seems to be in favor of Elargo, and no regrets were expressed at the death of this cowardly vagabond. Page was a Scotchman, and worked at blacksmithing in Victoria in 1858."

THE THEATRE—Apart from the laudable character of the institution which it is proposed shall be benefitted by the proceeds from the performance this evening, the bill is most attractive, and should in itself fill the building. Some of the best amateur performers in the Colony will appear in the pieces, and when we add that the talented Jennie Arnot and the popular Marshes will assist, we hope we have said sufficient to insure a "bumping" house. The pieces selected are "Time Tries All," and "Retained for the Defence." A company of talented and eccentric performers, who are said to have just arrived from foreign parts, will also appear and exhibit their drolleries. The entertainment will be under the patronage of His Excellency the Governor, and Sir James Douglas, an old honorary member of the department, has signified his intention of being present.

WESLEYAN MISSIONARY MEETING—A most agreeable meeting in support of the missionary cause was held last evening in the Wesleyan Church, of which Rev Mr Browning is pastor. The attendance, owing to the inclemency of the weather, was not large; but a hearty interest was manifested in the progress of the work by those present. Mr William McKay occupied the chair, and the excellent choir, composed of young ladies and gentlemen belonging to the congregation, under the leadership of Professor Spencer, and ably accompanied by Mrs Hutchinson on the organ, rendered several choice selections of sacred music in a faultless manner. Addresses were delivered by Mr McKay, Rev Mr Browning, Rev Mr White of New Westminster, Mr A. R. Robertson, Hon. Mr Hines of Washington Territory, and Rev Mr Todd of Whidby Island. We can truthfully say that we have never listened to more appropriate, able and earnest addresses than those of last evening. Mr Hines was particularly eloquent, and held the audience entranced for upwards of an hour. At the close of his address the hon. gentleman was enthusiastically applauded. Resolutions were passed pledging the support of the meeting to the cause. A collection having been taken up, votes of thanks were tendered the speakers, the choir and the chairman, and the meeting, after singing the doxology, was dismissed with a benediction by Rev. Mr White.

RIFLE VOLUNTEER CORPS—A meeting of this body was held on Monday evening, at the rooms of Corporal Norris, on Government street, to consider the financial state of the Company. About fifty members attended, including the Captain Commandant, who presided. The Paymaster laid before the meeting a detailed statement of the finances, also a report carefully drawn up by two auditors appointed to look over the accounts of the company, from which it appears the corps is two thousand dollars in debt, and to meet it it is expected the Government will give the usual grant for that purpose. It is thought that there will be realized from the monthly payments of active members, concerts, honorary members subscriptions, &c., sufficient funds to keep up the organization for the present, at all events. Resolutions were passed reducing the expenses to the lowest amount, and also for the appointing of a deputation to proceed to New Westminster to wait on His Excellency to lay full particulars before him, and with a view to having a suitable amount placed on the Estimates for the current year for the use of the volunteers.

QUEENSLAND, AUSTRALIA.—Riots have taken place at Brisbane, in Queensland, among the unemployed immigrants. The Volunteers and the Fire Brigade were called out and pelted with stones. The stipendiary magistrate was struck with a missile and injured while reading the Riot Act. Many arrests were made and the town gradually quieted down. At last accounts Government was paying the passages of distressed men to parts of the Colony were work was procurable. The free immigration system had been discontinued.

SUPREME COURT—*Trade Assignees of the "Grotto" v King*—Action to set aside a bill of sale of effects of the Grotto to defendant by bankrupt Crooks. The evidence in this case was concluded yesterday, and after a long and patient summing up by the Chief Justice, the case was given to the jury, who returned a verdict in favor of the plaintiffs. For the plaintiffs, Mr McCreight, instructed by Drake & Jackson; for the defendants, Messrs Pearkes & Green. Defendant will prove on the estate as a concurrent creditor.

HARD TIMES seem to afflict the people of Portland quite as badly as they affect us. The *Herald* says that the dredger has been laid up because the City cannot defray the expense of running it. The Mayor has vetoed the ordinance for improving the public thoroughfares; the steamers are crowded with passengers who are leaving the country for ever, and the empty houses are counted by the hundred. Where can the discontented Victorian go to benefit himself?

CAVED IN—The roof of Lachapelle's boat building shed (formerly the James' Bay Saw Mill) succumbed beneath the weight of snow yesterday for the second time. We regret to hear the industrious occupants are severe losers by the mishap; among other things destroyed being a splendid Whitehall boat intended by her owners to be mistress of these waters. The verandah of Edwards' crockery store on Yates street also caved on Monday night.

LIQUOR LICENSES.—Mr Treasurer Watson gives notice that the third quarterly instalment for liquor licenses granted for the current year, is payable on the 21st inst, and persons in default found selling after that date are liable to a penalty of double the amount of the license. A petition for the repeal of this license should be sent to the Council.

POLICE COURT.—Philip Duros, charged with wrongfully taking a wheelbarrow of the value of $4 and upwards, the property of the Crown, was discharged yesterday. Bill, a Simpsean Indian, was convicted yesterday of attaching No Sale a Bella woman and assaulting her with a knife. He was fined $10 or one month in the chain gang.

MECHANIC'S INSTITUTE.—Should Capt. Porcher of H.M.S. Sparrowhawk not arrive in time to lecture to-morrow at the Mechanics Institute, Mr C. B. Young will supply his place with an account of his travels in Central America.

THE ELIZA ANDERSON came in at one o'clock yesterday afternoon. During the previous night she encountered a heavy blow in running across from Port Townsend, and had to put back.

☞ The Josie McNear arrived from Puget Sound at three o'clock yesterday afternoon.

☞ Nearly $1000 have been already raised by the Committee on behalf of the Jewish Synagogue.

☞ The Portland papers recommend that an effort be put forth to keep the Fideliter in the Victoria trade.

☞ A series of concerts—vocal and instrumental—for the benefit of the Female Infirmary—are projected.

☞ The wires remained down yesterday.

Medical.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expungation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures to numerous and too remarkable to be forgotten.
